- **HOUSE CHECK SERVICE:** Upon request, The Village Police Department will make regular checks of your home while you are away. In addition to checking doors and windows, officers making the check can, if requested, pick up newspapers and discard them so that an accumulation of papers on your lawn does not become an invitation to burglars. A written report of the checks made on your home will be mailed to you a few days after you return from your trip. Residents should note that this service **does not** guarantee that a break in will not occur. The frequency of checks made on any residence **may vary** according to the other service demands placed on officers on patrol.
- **TRAFFIC ENFORCEMENT:** Traffic enforcement is a very high priority for The Village Police Department. Approximately, 30 Million (YES, 30 MILLION!) cars pass through The Village each year on the city's four major thoroughfares. While speeding should never be tolerated, this high volume of traffic makes traffic enforcement all the more important to ensure that our streets are safe for motorists. Of the 30 million motorists passing through The Village each year, approximately, 5,000 (a relatively small %) receive traffic citations.

COMMENTS

Oklahoma Radio Partners, LLC ("ORP"), by its counsel, and pursuant to Section 1.420 of the Commission's Rules, hereby submits its comments in the above-captioned proceeding. ORP requests that the Commission modify the reference point associated with the proposed allotment of Channel 249A in this proceeding. As demonstrated herein, the proposed modification is consistent with the Commission's allotment rules and is made with the petitioner's consent.

1. Exhibit E, Figure 1 is a channel spacing study, showing that Channel 249A can be allotted to Hennessey from the modified reference coordinates with clear spacing to all existing and proposed allotments. Figure 2 is a map demonstrating that from the proposed reference coordinates, the facilities will place a 70 dBu contour over the community of Hennessey.

2. Exhibit A is a statement from the petitioner in this proceeding, Charles Crawford, consenting to the proposed modification of the allotment reference coordinates. ORP did not pay or promise to pay any consideration whatsoever in exchange for the petitioner's consent.

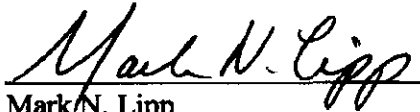

3. ORP intends to prepare a proposal for submission to the FCC which will offer protection to the Hennessey allotment if it is modified as proposed herein.

WHEREFORE, for the foregoing reasons, the Commission should adopt the Hennessey allotment with reference coordinates modified as proposed herein.

I, Charles Crawford, petitioner in the above-captioned proceeding for a new allotment on Channel 249A at Hennessey, Oklahoma, hereby consent to a change in the reference coordinates of the proposed allotment to 36-07-55 North Latitude, 97-58-46 West Longitude. I will file an application for Channel 249A consistent with the Commission's spacing rules if the amendment to the FM Table of Allotments is approved.
